## “How to study effectively”

### Study Strategy Plan – My New Year’s Resolution 2015

Be honest to yourself while filling this form, but not to be too hard on the other hand!

#### 1. My dreamed job:

#### 2. Why I think, this is a job for me?

| My abilities | My appropriate experience so far | What other people say about |
|--------------|----------------------------------|-----------------------------|
|              |                                  |                             |
|              |                                  |                             |
|              |                                  |                             |
|              |                                  |                             |

#### 3. What qualification do I need to apply for this job?

| Skills | Knowledge | Commitment |
|--------|-----------|------------|
|        |           |            |
|        |           |            |
|        |           |            |
|        |           |            |

#### 4. Which of my current courses are essential to get this qualification? (Two or three is enough.)

| Name of the course | My grade in winter 2014/2015 | Desired grades in summer 2015 |
|--------------------|------------------------------|-------------------------------|
|                    |                              |                               |
|                    |                              |                               |
|                    |                              |                               |
|                    |                              |                               |

#### 5. What courses that are crucial for graduation I have a problem with? (One or two is enough.)

| Name of the course | My grade in winter 2014/2015 | Desired grades in summer 2015 |
|--------------------|------------------------------|-------------------------------|
|                    |                              |                               |
|                    |                              |                               |
|                    |                              |                               |
|                    |                              |                               |

# School Can Be Fun

## “How to study effectively”

### 6. What are my main study difficulties?

- |                                      |                          |  |                          |
|--------------------------------------|--------------------------|--|--------------------------|
| Procrastination                      | <input type="checkbox"/> | Unable to take clear notes                     | <input type="checkbox"/> |
| Bad memory                           | <input type="checkbox"/> | Sleep less than 8 hours per day                | <input type="checkbox"/> |
| Learning unimportant facts           | <input type="checkbox"/> | Do not eat too healthy                         | <input type="checkbox"/> |
| Do not understand the course content | <input type="checkbox"/> | <i>Add other if you feel, it is important.</i> | <input type="checkbox"/> |
| Cannot concentrate                   | <input type="checkbox"/> |  | <input type="checkbox"/> |

### 7. In next months I will focus on:

a) The courses named in steps 4 and 5. It means:

(Check this box in June if you did it.)

- |  |                          |
|--|--------------------------|
| I do my homework from these courses straightly.  | <input type="checkbox"/> |
| I review my notes from each this class.  | <input type="checkbox"/> |
| I ask for help if I not understand some topic.<br>(peers, parents, teacher, private tutor, ...)      | <input type="checkbox"/> |
| I review my notes before each class.   | <input type="checkbox"/> |
| I look at other resources than my notes and school book<br>about current topic at least once a week. | <input type="checkbox"/> |
| I reward myself each time I see any success.   | <input type="checkbox"/> |

b) Improving study habits in which I’m not good in. (Checked boxes in step 6.) It means:

(Check this box in June if you did it.)

- |  |                          |
|--|--------------------------|
| I read as much information about these particular skills<br>as possible. | <input type="checkbox"/> |
| I regularly and honestly practice what I learn.                          | <input type="checkbox"/> |
| I reward myself for each successful step.                                | <input type="checkbox"/> |

My New Year’s 2015 resolution is: “I confirm, I do my best to follow the tasks described in step 7 of this filled Study Strategic Plan.”
